

SAMPLE ASSESSMENT REPORT BASED ON SC-I QUESTIONNAIRE

NAME: JPG DATE: 25 SEPTEMBER 2020

INTRODUCTION

The report is based on SALES CHARACTERISTICS INVENTORY (SC-I) questionnaire which is designed to explore the typical characteristics of a successful sales professional. It will provide you with information on the practices and behaviours that need to be sustained, strengthened or changed to enrich your sales efficiency.

The assessment report of JPG analyses the **INDIVIDUAL TRAITS** and **PERSONALITY CHARACTERISTICS** that is needed to excel in sales. It will also give you an overview of your current approach to your sales role and it will help you to recognise your strengths and weaknesses to enhance your sales competencies. It is a reflection of the responses provided by JPG when completing the assessment. This report can be used as an improvement aid to plan tactics and strategies to boost your performance.

The following report summarises JPG's greater or lesser potential against the generic traits required for a successful sales leader which emphasizes the value across different sales roles.

This report is based on and limited only to the responses that has been given to the questionnaire. Behaviours of any sales person can be understood and changed when proper training is given. Using this report the traits that should be improved can be identified. This sales assessment report can help you to achieve your goal of reaching increased sales effectiveness.
